The Client acknowledges that the following due diligence measures satisfy FLAASH.ME's obligation of cooperation and assistance to enable them to ensure compliance with the regulations, in particular:

- notifications of personal data breach, which will be transmitted to them by FLAASH.ME as soon as possible after becoming aware of the said breach (12.3.2 Security and confidentiality);
- requests to exercise the rights of the Client's customers (access, rectification, object, portability). As a processor, FLAASH.ME is limited to assisting the Client in fulfilling their own obligations. Thus, FLAASH.ME

never responds to requests to exercise such rights that are addressed directly: in the event that FLAASH.ME comes to be recipient of such a request, it will be sent to the Client as soon as possible so that the Client can manage the consequences;

- documents and information necessary for the satisfaction of the controller of their Accountability obligations.

### 12.3.2 Security and confidentiality

- The Client acknowledges that the following procedures satisfy the obligation of security and confidentiality necessary for compliance of the processing with the regulations:
- The Client's Data and the Tools are hosted on FLAASH.ME's own servers, hosted in the infrastructure of OVH France located in France, one of the top European professional hosts;
- Server security and FLAASH.ME operating software updates are checked in real time;
- FLAASH.ME uses the TLS-SSL protocol to encrypt data transfers. This encryption method protects the data by systematic scrambling of the information before it is transferred to FLAASH.ME ;
- FLAASH.ME only allows access to the Tools and the Client's Data to those specifically authorised by FLAASH.ME and the Client ;
- No employee of FLAASH.ME has access to the Client's Data, unless access to such information is necessary for the Subscription or for the implementation of the Services. At the request of the Client or the Users and subject to Subscription to the Support Services, FLAASH.ME may connect remotely to their Accounts, after formalisation of the User's agreement in a support ticket, to assist them in the configuration or use of the Tools ;
- Each employee of FLAASH.ME is bound by a commitment regarding the protection of Personal Data;
- FLAASH.ME will inform the Client of any Personal Data breach, as soon as possible after learning of it in view of the notification period given to the data controller by Articles 33 and 34 of the GDPR.
- FLAASH.ME will promptly investigate any breach of Personal Data in order to remedy such breach.
- FLAASH.ME will inform the Client promptly of the corrective measures and the measures put in place to remedy them.
- FLAASH.ME undertakes to assist the Client in its implementation of a data protection impact assessment, within the limits of the provision of

subcontracting and information available to FLAASH.ME, and may not be considered liable because of this.

### 12.3.3 Subprocessing

The Client authorises FLAASH.ME to use subprocessors acting in their name and on their behalf to assist in the processing of the Client's Personal Data.

FLAASH.ME takes all necessary precautions to the choice of their subprocessors to whom their Client's Personal Data are entrusted, and shall inform the Client of any planned changes regarding the addition or replacement of a subprocessor by any written notification at their earliest convenience.

The Client may object to such an addition or replacement by notifying FLAASH.ME in writing within ten (10) days of receipt of the FLAASH.ME's addition or replacement notification. The Client acknowledges and agrees that the absence of an objection within the aforementioned period shall constitute an acceptance on its part of a new processor. In the event that the Client objects to the appointment of a subprocessor, for a legitimate reason, the Parties agree that either Party may terminate the Subscription. Contracts entered into by FLAASH.ME with any subprocessor contain the same obligations as set out in these GTCSU, including requiring the subprocessor to process the Client's Personal Data only in accordance with FLAASH.ME's written instructions.

FLAASH.ME remains fully liable towards the Client for any processing carried out by the subprocessor in violation of the obligations of these GTCSU.

### 12.3.4 Audits

If the Client deems it necessary to carry out an audit in accordance with the regulations to verify the compliance of the Software provided with the regulations and the GTCSU, FLAASH.ME agrees to comply under the following conditions: FLAASH.ME provides the Client, at its request and by email, the necessary documentation to demonstrate FLAASH.ME's compliance with its obligations as a processor. If the Client considers that this documentation does not allow them to demonstrate compliance of the Services with the regulations, the Client issue an on-site audit request, justified and documented, by registered letter with acknowledgement of receipt.

The audit must be performed by an independent auditor of known reputation, not competing with FLAASH.ME's business activities. This independent auditor is chosen by the Client and accepted by FLAASH.ME. The auditor must have the required professional qualifications and be subject to a confidentiality agreement.

The Parties acknowledge that all reports and information obtained as part of this audit are confidential information.

The start date of the audit, the duration and scope of the audit must be agreed between the Parties with a minimum of 30 working days' notice. The frequency of audits is limited to one audit per year and must not disrupt FLAASH.ME's activity. The audit can only be carried out during FLAASH.ME's business hours. The audit shall not include access to information not related to the processing performed in accordance with these GTCSU or physical access to the servers on which the Solution is saved.

The Client shall bear the full costs and expenses incurred due to the audit and shall reimburse FLAASH.ME for all costs incurred for this purpose, including the time spent on the audit on the basis of the average hourly rate of FLAASH.ME staff who have collaborated with the audit.

#### **12.3.5 Location – Data Transfers**

Personal Data of Users are stored in France on FLAASH.ME servers, hosted by OVH France.

Transfers to the United States with appropriate guarantees may be considered, for certain IT services, only for the purposes described in Article 12.1.

#### **12.3.6 Restitution, destruction de données à caractère personnel**

At the end of this Agreement, at the Client's option and within 30 days of the Client's request to FLAASH.ME for this purpose, FLAASH.ME will immediately return to the Client all Personal Data and all copies thereof or will delete or destroy the Personal Data in a secure manner.

This obligation shall terminate twelve (12) months after termination of the Annual Subscription for any reason whatsoever.

In the event of breach of this article, the Client agrees to pay FLAASH.ME, as a penalty clause, an amount equal to twelve (12) months of the monthly salary (net of employer and employee social contributions) paid by FLAASH.ME to the employee concerned, on the date on which the breach of the obligation is established. This penalty shall be due for each FLAASH.ME employee who is hired by the Client or whose services are solicited by the Client in any form whatsoever.

### ***15.7 Relationship Between the Parties***

Under no circumstances shall the GTCSU be considered as establishing a de facto or joint-stock company between the Parties or any other situation entailing any mutual or joint representation between them with regard to third parties.
